

## **Mission**

Montessori Academy, guided by the philosophy of Dr. Maria Montessori, immerses students in a diverse community that values creativity and nurtures each student's social, emotional, and academic growth.

## **Belief Statements**

- We believe in creating a prepared environment that calls to the child.
- We believe the journey of education is driven by love of learning and encompasses traditional academics, practical life skills, self-discovery, and creativity.
- We believe that the teacher/student relationship should be built upon clear communication and expectations, the child's individual needs, and self-discovery and exploration with teacher guidance.
- We believe that our students should build a relationship with the global community in order to become productive members of society.
- We believe positive interactions between home and school allow for the child to develop to their fullest potential.
- We believe the decisions we make today steer the course for the future.
